Community Awareness Committee members:

In light of continuing community interest in the recent U.S. Army Corps of Engineers report ("*Evaluation of the San Jacinto Waste Pits Feasibility Study Remediation Alternatives*," August 2016), please find an overview presentation and summary on the report developed by the PRPs.

In addition, please find an overview and summary document reflecting results from the recently completed Sampling and Analysis Program required of the PRPs by EPA Region 6.

These documents have been provided to EPA and are shared here for your information.
